MISSION

“With our wide range of Formwork & Scaffolding Systems, extensive practical knowledge & experience, we help our customers to execute their constructions projects, effectively safely and in cost effective manner” and to maintain reputation of superior product quality supplier, professionalism and provide outstanding services to our customers.

VISION

To be recognized as most reliable brand in industry and contribute to maintain safe construction sites

INTRODUCTION

We at POLY-TECH are involved in the realization of a Construction Industry and carry large responsibility in providing high Quality Formwork & Scaffolding Systems, which ensures the safety of all the construction site personnel.

Construction Industry creates impressive and long-lasting structures and we at POLY-TECH support construction professionals in meeting these challenges with our systems, we ensure that they execute the projects in time, more safely and above all cost effectively.

Poly tech designs, manufactures and supplies products ranging from simple shoring accessories to technically sophisticated scaffolding and formwork systems. Many are custom – designed to provide the high productivity solutions demanded by national and international construction projects.

Supported by a highly experienced design and marketing network, using the latest technology in computer – aided design, poly tech has had key complexity. The company regularly works on projects such as bridge support, retaining walls, reservoirs and commercial building work.

Our overriding aim is to be our customer’s first choice when selecting formwork, shoring and access products.

We underpin our commitment to providing the highest levels of on – site safety and productivity with our statement in support resources and the specialist expertise and dedication of the entire poly tech team.

Product development

Poly tech is committed to a continuous programmed of development to ensure that our products meet the ever – changing needs of the industries we work in,

Our internal development team works closely with our customers to develop safe and cost – effective solutions to formwork problems.

Design and engineering

Poly tech has strategically placed Design centers and a large team of highly experienced design engineers, equipped with the latest technology and available to work with you on projects where the build specification or site conditions demand a tailored design solution.

Safety management

Poly tech is committed to setting the standards for safe working practice in the industries we work in. Our aim is to provide the safest possible working environment for our customers. We have a dedicated safety advisers working across our service network to ensure that we meet and maintain our safety commitment.

Project support

Poly tech has vast experience of site supervision on major construction and refurbishment schemes and on key industrial complexes. Our specialist project management teams work in close partnership with customers to help team ensure that their build and maintenance programmes are completed to schedule and within budget.

National stock availability

Poly tech national network of service centers holds stock of over standard range of products. Our sophisticated inventory management system enables us to mobilize stock at short notice to ensure that our customer's site are always fully serviced.

Further information

This manual has been written and designed to provide an overview of poly tech industries and its services, works and cliental . More detailed products information are available in electronic or hard copy format. For product brochure Contact your nearest office or mail us.

Our products and solutions are as diverse as the world of building and construction itself while at the same time they individually adapt to various construction works, we help in providing –

- Cost effective & practical application of Formwork & Scaffolding System.
- Optimized solution & utilization of Formwork and Scaffolding System.
- Safe and economical Formwork & Scaffolding System..
- Reliable & committed Formwork & Scaffolding Company.

AVAILABLE SYSTEMS OF SCAFFOLDING & FORMWORK

Access solutions

- ✚ Cuplok system
- ✚ Cuplok system with omega components
- ✚ H frame system
- ✚ Wedge lock system
- ✚ Tube and fittings system
- ✚ L&T Heavy Duty System
- ✚ Framed ladder system

Staging and centering solutions

- ✚ Cuplok system
- ✚ Cuplok system with omega components
- ✚ Metriform system
- ✚ H frame system
- ✚ Wedge lock system
- ✚ Tube and fittings system
- ✚ L&T Heavy Duty System
- ✚ Prop and span system

Formwork solutions

- ✚ Wall form system
- ✚ Column form system
- ✚ Built in soldier system
- ✚ Poly tech alkus system
- ✚ Jump form system

AREA OF APPLICATION

- Housing Projects
- High rise Buildings
- Power Plants
- Sports Stadiums
- Industrial Structures.
- Commercial buildings
- Water Retaining Structures
- Towers and chimneys
- Multi Level Parking
- Bridges & Tunnels
- Highways & Expressway
- Dams

ADVANCE POLYTECH

POLY-TECH Industries is “One Window Shop” for all your requirements of Formwork & Scaffoldings anywhere in India. We stand by our slogan “A promise of quality.....we commit” ensuring quality checks at our Five production units at *Sonepat* & at *Delhi*, meeting not only Indian Standard Specification but to our clients satisfaction as well.

The selection of Top Grade Raw Materials for **POLY-TECH** products combined with the experience and skills of our production team, *stringent quality* controls during production *Guarantees* that **POLY-TECH** products are *reliable, durable* and *of the finest Quality Standards*

At **POLY-TECH** ‘*The Formwork & Scaffolding people*’ offers one point contact to clients with nationwide scaffolding and formwork requirements. Through the POLYTECH network, **POLYTECH DIRECT** organizes and coordinates a tailor-made service for customers. This is one stop shop for your all scaffolding and formwork requirement. If you want to talk to **POLYTECH DIRECT** team about your requirements, please call **011-47292233/34/35/36**

At **POLY-TECH**, Scaffolding & Formwork material is also available **ON HIRE** for fast-track projects, subject to Availability of material in stock.

POLYTECH DIRECT

RENTAL SERVICES

The task of finding the optimum scaffolding & formwork solution for a structure begins as early as in the bidding phase. For the eventual profitability of a construction project, this is often a make-or break decision. *PTI* design engineers start in putting their wide-ranging knowledge, and the experience amassed in the course of innumerable projects, from a very early stage. This way, we successfully accompany you all the way through your construction project

DESIGN CENTRE

Choosing the right scaffolding & formwork system is a decisive step in ensuring the success of a construction project. *PTI* supports the selection, planning and application of its scaffolding & formwork systems with a range of services that prevent cost overruns for formwork utilized on site and thus effectively ease the work of site managers and foremen.

Advantages

- Optimized scaffolding & formwork engineering based on technical and time requirements of your construction project
- Site-oriented planning and engineering expertise, including customized solutions
- Computer-aided first-use planning and equipment requirements calculation

POLY-TECH Institute of scaffolding and Form work technology in *Delhi* provides *short terms/long term training modules for working and fresh Civil Engineers*. Construction sites all over country mean experience from all the states. The specialist knowledge we have amassed from many projects is something we pass on to our customers. The *PTI* training programmed offers numerous seminars focusing on formwork application. We also deal regularly with special topics of the construction industry

TRAINING CENTRE

PIFT also conduct onsite training for the senior middle & junior level management staff to make them aware of various Formwork/Scaffolding System available and their safe usage to make "ACCIDENT FREE & SAFE environment".

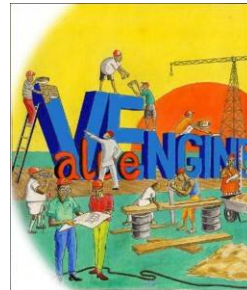

Advantages

- Practical tips for the most efficient use of formwork AND SCAFFOLDING.
- Latest information on innovative formwork systems AND SAFETY.
- Save costs with safe and quick work by your professionally trained crews.

Seminars tailored to the need's specific to your company

“Value Engineering” —the term is routinely bantered around by contractors as a way of cutting costs. But does that have anything to do with value? Does it even have anything to do with engineering? In easiest term Value Engineering in construction is an engineering approach to reducing cost of work without compromising with safety parameters.

VALUE ENGINEERING

POLY-TECH Industries is lead by professionals with vast experience in the field of fabrication, designing, planning of Formwork & Scaffolding to meet your

Requirement of an efficient, reliable, versatile and safe value engineered products and Techniques and gives sound technical advices at all levels.

Welcome to **Go Green Tips**. We At **POLY-TECH** The *Formwork & Scaffolding people*’ are always believe in helping each other to keep our planet greener .All the product range provided by **POLY-TECH** are wood free.

GO GREEN PRODUCTS

It is never too late to start. Learn to save plant and save money long-term by using **POLY TECH** products. We can all do our bit, regardless how small or big.

BUY BACK SCHEME

NATIONAL ENQUIRES

POLY TECH offers **BUY BACK SCHEME** of material for their esteemed customers after completion of project / utilization of material. The scheme is valid only for material manufactured by POLY TECH and condition of material*.

*TERMS AND CONDITION APPLIED.

COMPANY PROFILE

With MORE THAN THREE DECADES of experience gained through close interaction and service to the major names in Indian construction industry in their scaffolding and shuttering requirements, today we operate from our corporate office at:-

POLY-TECH Industries
802-803, Gopal Heights,
D-9, Netaji Subhash Place,
Pitampura, New Delhi 110034.

Important Business strategies and day to day field plans are discussed and worked out here. Decisions are made in complete Co-ordination and active participation with various regions.

MAJOR POINTS OF POLYTECH

- One of the Largest and most established company in scaffolding and formwork in India – established from almost nothing.
- Having reasonable experience with respect to scaffolding for Power (Boiler), Refineries, shipyard, Archaeological restorations and other maintenance jobs.
- Right from the initial planning, design to supply and erection/dismantling guidance
- Special pre and after sales services provided through engineers/supervisors at site for erection and dismantling.
- Complete solution for all scaffolding requirements for maintenance.
- Complete in-house manufacturing of various components

Special capabilities of POLY – TECH for maintenance jobs particularly for dockyards and other industrial maintenance.

MANUFACTURING FACILITIES OF POLYTECH

- POLY-TECH is having the one of the largest manufacturing capacities in India.
- All products are 100% manufactured in-house.
- POLY-TECH specializes in
 - ✚ Scaffolding for all types of maintenance, repairs and overhauling jobs.
 - ✚ Complete in-house design facilities.
 - ✚ Adaptability, versatility and vast range of products.
 - ✚ Design, manufacturing and supply of complete range of formwork and support staging systems for various RCC structures.
 - ✚ Complete support – “FROM CONCEPT TO COMMISSIONING”

MANUFACTURING UNITS / CAPACITIES OF POLY TECH INDUSTRIES

Sr. No.	Units	Items Manufactured	Installed Capacity
1.	Sonepat unit – 1	Tubular & Scaffoldings Spans	400 tons per month
2.	Sonepat unit – 2	Tubular & Scaffoldings Spans Scaffold Boards Shuttering Plates Props Forged & Pressed Fittings	1200 tons per month

THE SALES AND MARKETING DIVISION

The Sales and Marketing division of **POLY-TECH** works with design team for various projects and the sales offices are strategically located at two places so that sales professionals are able to approach complete north as well as south India.

INDIA SALES OFFICES -

1. Delhi
2. Bangalore
3. Hyderabad

SCAFFOLDING & FORMWORK EQUIPMENTS SUPPLIED TO VARIOUS INDUSTRIES PARTICULARLY FOR MAINTENANCE & CONSTRUCTION SECTORS IN INDIA
